

CIAC CERTIFICATE

Customer Information

ABB Turbocharging

CERTIFICATE AWARDED TO

Mr. Agnik Jana

Goodwood Ship Management Pte. Ltd.

CIAC is driven by ABB's belief that appropriate information empowers operators to get the most out of their turbochargers and thus enables them to maximize their profitability.

The CIAC course provides the very latest information about ABB's complete range of turbochargers, including both theory and practical applications in maintenance.

The course features up-to-date information about important topics such as turbocharger operation, maintenance concepts, new product developments and future trends, technical explanations and maintenance demonstrations.
